

IN THE SPECIFICATION

Please amend the specification as follows.

Please delete original paragraph [0061] and substitute new paragraph [0061] in its stead as follow.

~~[0061] Figure 2 is a flow chart 203 illustrating an exemplary method of operating an electronic device, such as, for example, the mobile handset 107 of Figure 1, according to an embodiment of the present invention. The following description of Figure 2 makes reference to elements illustrated in Figure 1. Figure 2 illustrates an embodiment wherein an end-user may be provided an opportunity, or be prompted, to select at least one of a plurality of available update agents to apply update information by employing at least one available update. Processing is initiated 205 when the electronic device is rebooted or powered-up and the update application loader 127 is executed and invokes the boot initialization code. The update application loader 127 may also determine update necessity.~~
